# Jennifer Boss

## Perfected Home

Jennifer Boss has a passion for transforming spaces and creating homes that feel both stylish and welcoming. As the owner of Perfected Home, she brings years of experience in home services and interior design, helping clients craft beautiful, functional living spaces. Before launching Perfected Home, Jennifer built and led a top-producing Budget Blinds franchise, a success story that continues to shape her design expertise today. Originally from Pleasant Hill, California, Jennifer has called Portland home since 1993. With degrees from Valparaiso University (BA) and Concordia Portland (MA), she blends creativity with strong business acumen. Her connection to home design runs deep — not only does she provide expert interior styling, but she and her husband, Derek Lehman, have also been longtime supporters of Habitat for Humanity. Outside of work, Jennifer enjoys traveling, soaking up the energy of the city, and escaping to the Columbia Gorge on weekends. A lifelong music lover, she holds a degree in music, has conducted professionally, and has even lent her voice to weddings and funerals. Now an empty nester, she embraces the freedom to explore and create — both in design and life.

### Q What does your business do? How is it unique?

Perfected Home specializes in unique and personal home interiors. As a designer

working in custom finishes for over two decades, I know the interplay of all components is the key to making a room feel beautiful and whole. I offer impeccable interior design, attentive customer service and promise to sprinkle in a little bit of humor to make the design experience approachable and fun.

### Q What keeps you motivated in your career/business?

I never tire of a client's joy when we reveal their space! Helping people love their homes drives me daily. The real reward is the personal connection and shared excitement that make my work truly fulfilling.

### Q What are you most proud of professionally?

I'm always proud of my current project — each one is unique, like people. I love serving clients, surprising them with fresh ideas, and creating a seamless experience every time.

### Q What is your advice for young women in business?

Follow your passion, but back it with a solid business plan. Success is at least 50% understanding the business side of things.

### Q How would you describe your perfect day off?

Puerto Vallarta, lounging with cocktail and a great book — pure bliss.

### Q What is at the top of your bucket list?

An African safari with my husband Derek is at the top.
